

SAINT PAUL FEDERATION  
OF EDUCATORS LOCAL 28  

October 24, 2019

Union Family Members of Chicago Teacher Union:

The Saint Paul Federation of Educators, a union of 3500 educators and home of the first teacher strike in the country, stands united with CTU and SEIU 73 as they fight for the schools Chicago students deserve.

Messages of austerity and scarcity are twin myths used to justify TIF projects and tax breaks for wealthy corporations and normalize the theft of dollars - not only from our public schools, but also from our communities.

Your fight for Chicago students – capping class size, a nurse in every school, and adequate mental health and special education supports – is our fight for Saint Paul students. Your commitment to use your collective power to speak out for the common good in Chicago – creating safe and healthy communities, seeking a moratorium on charter schools, and expanding affordable housing – is our commitment in Saint Paul.

We support you, stand by you, and are proud to call you our union family.

In Solidarity,

A handwritten signature in black ink, appearing to read 'Nick Faber', with a long horizontal flourish extending to the right.

Nick Faber, NBCT

President

St. Paul Federation of Educators
