Subject: Fw: Phase 1 Reopen Schools

Good morning, Joan,

Thank you for reaching out to the School Board. Your email was shared with Assistant Superintendent Doud and Principal Carrigan. Please know that the custodial and administration are continuing to work these next two days in preparation for reopening on Monday.

Please know that staff will have the appropriate Personal Protective Equipment (PPE), including gowns by Monday.

Lastly, I would invite you to reach out to Principal Carrigan, as she can provide you with any information regarding stickers and/ or PPE.

Thank you again for your interest in the health and wellness of our students and our staff.

Sincerely,

Joe

Subject: Re: Phase 1 Reopen Schools

Good Afternoon Superintendent Gothard,
The reason I reached out to the school board, instead of going to my principal or my SPED supervisor, is that we have a communication barrier or problem between the district administration and your people in the buildings. I have reached out to my principal, she has no more information than we do. It's very frustrating. My principal works very hard, but she can't make things magically appear. She should have not had to worry about the floor markings!!!! That should have been done, as you and your team told us it would be. Your communications are so important! Please remember your educators and families and students don't have the inside information you have. Please keep us informed and follow through with your safety protocols.
Thank you.
