---

Marcy and Kate,

Educators have received verbal directive from their supervisors to post/provide lessons for students on their classlists who are waitlisted for the Online School. We will be instructing our members to wait to fulfill this directive until after our meeting on Monday.

I spoke with the Superintendent this morning and I suggested that people be found at the district level to create lessons/activities that can be shared with staff for the waitlisted students rather than people creating any lessons individually.

Thank you,

Leah

Leah VanDassor, President  
Saint Paul Federation of Educators, Local #28
